EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William Lanyi on 6/20/2005.

The application has been amended as follows:

IN THE CLAIMS:

In claim 1, line 24, "said block of material being attached to an upstream surface of said throttle plate" has been replaced with --and a first hole extending through said block of material in a direction which is generally perpendicular to said pivot axis--.

Claim 3 has been canceled.

In claim 4, line 1, "3" has been replaced with --1--.

In claim 5, line 1, "3" has been replaced with --1--.

In claim 6, line 1, "3" has been replaced with --1--.

New claim 21 has been added to recite the following --The throttle body assembly of claim 1, wherein: said block of material being attached to an upstream surface of said throttle plate.--.

The above amendments to the claims were made to correct an error by the Applicants. Applicants had intended to incorporate the subject matter of claim 3 that was designated as allowable after the previous Office action mailed 6/1/2005 into claim 1. However, Applicants

Art Unit: 3751

incorporated the subject matter of claim 10 into claim 1 accidentally. The above amendments to the claims was made to correct this error by incorporating the subject matter of claim 3 into claim 1, removing the subject matter of claim 10 from claim 1, and creating new claim 21 that depends from claim 1 that recites the subject matter of original claim 10.

Allowable Subject Matter

2. Claims 1, 2, 4-9, 11, 12, and 14-21 allowed.
